

WomenCorporateDirectors
A Foundation Inspiring Visionary Boards Worldwide

WCD Member Value

WCD Membership: Join a Global Community of Visionary Directors

WCD is a trusted community of support and expertise for women directors of public and large private companies – representing the highest levels of executive and board leadership in business today.

A not-for-profit organization, WCD is committed to member education and connection, creating a global community of peers in corporate governance. We are advocates for women on boards, and for each other in our efforts to be visionary directors.

As a WCD member, you will contribute to and benefit from the exchange of knowledge and experiences from top women leaders around the world – in an environment of trust and mutual support. WCD membership allows you to optimize your board performance and develop long-term, sustainable impact for your company and its stakeholders.

Become Part of a Trusted, Global Peer Network

By joining a local chapter in your area, you become part of a network of corporate directors across six continents. Included in your membership are 3-4 chapter events each year, where members discuss boardroom issues in an inviting, off-the-record atmosphere. In your travels, you can connect with fellow members in other WCD chapter cities in the Americas, Europe, Asia, Africa, and Australia.

Learn from Global Board Leaders and Governance Experts

WCD produces several original pieces of thought leadership each year, often co-authored by our key sponsors, that cover topics that are top of mind with board members today.

Recent examples include:

- Thought Leadership Commission Report: Decision-making in the Visionary Boardroom (by WCD and KPMG LLP)
- Thought Leadership Commission Report: The Visionary Board at Work-Developing a Culture of Leadership (by WCD and Pearl Meyer)
- Boardroom Strategy Briefing: Managing Tough Issues in the Boardroom
- Cyber Risk Management: Response and Recovery (by WCD and Marsh & McLennan)
- Global Board Survey (by WCD, Spencer Stuart and Harvard Business School)

Access Board Opportunities and Director Events

Throughout the year, WCD provides opportunities to members to apply for open board seats as part of their membership benefits. In addition, WCD hosts several key educational and networking programs, including the annual Global Institute, regional meetings,

industry roundtables, family business programs, board committee peer exchanges, and a special session for S&P 500 directors. WCD is also planning to host several webcasts during the 2018-2019 membership year.

Share Expertise and Recognize Board Peers

WCD's members are seasoned directors and business executives, and as such, WCD seeks to showcase their significant insights as speakers on panels and featured experts in articles and whitepapers.

WCD also recognizes the accomplishments of our members via our social media channels, on the website and in the member newsletter.
